Abstract

3.1. Introduction

Cite like this: <code>@Author_2023</code>, or <code>@Author_2023@Author_2023</code> for multiple citations (without backticks). Change citation style in the <code>main.typ</code> file. If you want to cite without parentheses, use <code>#no-paren-cite((<Author_2023>,))</code>. Note the double parentheses and the commas, this is because for now the function only takes an array. This is useful when citing multiple works like <code>#no-paren-cite((<A>,))</code>.

Like this you can reference your figures: Figure 3.1

To refer to chapters, the label is automatically set as the first and the last word of your title. Example: refer to Chapter 3 using @theitalic and to Chapter 4 using @secondthesis.

Abstract

4.1. Introduction

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magnam aliquam quaerat voluptatem. Ut enim aeque doleamus animo, cum corpore dolemus, fieri tamen permagna accessio potest, si aliquod aeternum et infinitum impendere malum nobis opinemur. Quod idem licet transferre in voluptatem, ut postea variari voluptas distinguique possit, augeri amplificarique non possit. At etiam Athenis, ut e patre audiebam facete et urbane Stoicos irridente, statua est in quo a nobis philosophia defensa et collaudata est, cum id, quod maxime placeat, facere possimus, omnis voluptas assumenda est, omnis dolor repellendus. Temporibus autem quibusdam et. (Author et al., 2023)
